Olive Milling Service for the Smaller Grower

Think you would like to do something with those olive trees of yours? Our mill is designed for the small grower. If you can collect at least seven, 5 gallon buckets of quality oil-producing olives, you will receive wonderful oil. Where larger presses require at least 500 lbs. of olives we specialize in the 200 lb. to 1000 lb. job.

We start pressing in late October through early December. Why don't you join us? Note: Some table olive cultivars will have significantly less oil when milled.

BENCHMARK MILLING RATES FOR BULK OLIVES with bin weight subtracted.
